

**Mrs. del Valle**  
**Class Rules and Procedures**

**Welcome to Honors Probability and Statistics.** I look forward to working with all of my students this school year. I expect all my students to attend class regularly, be prepared for class, study and learn the material, and be respectful of the learning environment.

**Preparation for class:** All students should have a math notebook, (preferably a 3 ring binder with plenty of notebook paper). An organized notebook is a starting point to success in the class. A graphing calculator (TI-83) is required for this course.

**Homework:** Homework is checked randomly for completeness and assigned daily. In the event there is not written homework, studying and reviewing is highly recommended. Each graded homework assignment is worth 2 to 4 points.

**Projects:** A project will be assigned during the 1st quarter and 4th quarter. Projects are worth 50 points.

**Quizzes and Tests:** Quizzes are between 10 and 50 points each and tests are 100 points each. It is important to always show your work on a quiz or test or credit will not be given.

**All school and district rules will be enforced.** This especially includes tardiness and electronic devices. Cheating will be handled as per administrative guidelines and will result in an automatic ZERO.

**Grading Scale:** The grading scale is the standard scale set by the Broward School Board (90 - 100 A, 87-89 B+, etc.). Students are responsible for keeping track of their own grades and monitoring their own progress so that they are not surprised at report card time.

**Extra help:** Please see me to make an appointment if you need any extra help..

**Make-up policy:** Students who miss school will be given two days for each day absent to make up their work. **If no new material was taught while the student was absent, the student will be required to take tests and quizzes the day they return.**

**Passes:** Students are expected to use the restroom between classes. Only in an emergency will a student be issued a pass.
